

M.D. STETSON

PRO-ZYME

PRO-ZYME is a live bacteria emulsion which attacks grease, fats, proteins and carbohydrates, breaking down uric acid molecules quickly while digesting the source of odors with no environmental impact. Liquefies and cleans organic waste, paper, grease, fat and other wastes from drains, pipes and grease traps. Restores normal biological activity to septic tanks and sewage treatment plants. Add to recreational vehicle and marine holding tanks, port a-toilets and outhouses to deodorize and aid in digestion. Also effective for odor control, carpet spotting and general hard surface cleaning.

DIRECTIONS FOR USE:

ODOR CONTROL

Pre-clean organic matter (vomit, feces, etc.) from soiled surfaces. Spray 4 oz. per gallon PRO-ZYME directly onto surfaces where odors are a problem.

Spray around areas where odors originate.

Agitate, if necessary. Reapply mixture and allow surface to remain moist for at least 15 minutes.

Carpet and upholstery: Spray PRO-ZYME directly onto carpet, upholstery, and fabric to eliminate smoke and perspiration odors.

Garbage Collection Areas: To eliminate foul odors in garbage collection areas and on loading docks, spray PRO-ZYME directly into dumpsters and on surfaces where decaying or rotting food particles collect.

Restrooms: To control odors in public restrooms, spray PRO-ZYME around urinals and toilets to eliminate urine odors.

Locker Rooms and Fitness Facilities: To eliminate perspiration odors in fitness facilities, spray PRO-ZYME directly onto sports equipment and in areas where odors linger such as locker rooms, steam rooms, and around urinals and toilets.

GENERAL PURPOSE HARD SURFACE CLEANING

Spray 4 oz. per gallon PRO-ZYME directly onto the surface to be cleaned. Wipe with a clean cloth.

FLOOR CLEANING

Mix 2 - 4 oz. of PRO-ZYME per gallon of water. Apply with mop, spray or high pressure washer. Mop/scrub as needed.

SPOT REMOVAL ON CARPET

Test carpet or fabric for color-fastness in an area that does not show. Remove excess solids or liquid. Saturate the stain with PRO-ZYME and allow 2 - 3 minutes dwell time. Blot with a clean, absorbent cloth. For more difficult stains, scrub gently with a brush. Repeat as necessary.

CARPET CLEANING

Test carpet or fabric for color-fastness in an area that does not show. Mix 2 oz. of PRO-ZYME per gallon of water into an extraction machine. For deep penetration of carpets and upholstery, apply with hypodermic type injector/applicator.

LAUNDRY PRE-SPOTTER

Apply 4 oz. per gallon PRO-ZYME to soiled areas prior to washing.

CLEAN AND TREAT WASTES FROM DRAINS, PIPES AND GREASE TRAPS

For initial Treatment: 1qt. (32 oz.). Add PRO-ZYME to opening closest to trap prior to its longest non-use period. (Large traps may require additional amounts.) Pour 4 to 8 oz. directly into floor or sink drains, twice per week. For grease traps, 20 cubic feet capacity, pour 8 oz. into drain daily. Time application for when drains are least used. For septic tanks, use 16 oz. for initial treatment then 8 oz. per week thereafter.

Large Grease Traps: 200 gallon traps use 10 oz. per day, 500-1500 gallon traps use 18-20 oz. per day, 1500+ gallon traps use 32-40 oz. per day.

Bathtubs, Showers, Sinks: Add 4 oz. of PRO-ZYME twice weekly to drains. Vary amount and frequency according to usage and size of drain.

Garbage Disposal: Add 2 oz. of PRO-ZYME weekly for digestion and deodorizing.

SPECIFICATIONS:

Color Milky
 Odor Light Floral
 Weight per gallon 8.50
 pH 7.5 - 8.0
 Shelf life 1 year

PACKAGING:

Available in 1 gallon jugs, 5 gallon plastic pails, 30 and 55 gallon drums.
