

# PRODUCT DATA SHEET

## NONOYL LIQUID DUST MOP TREATMENT

Nonoyl is a ready-to-use, water-based, non-flammable dust mop treatment for daily floor maintenance on sealed floors and hard surfaces. Removes residual dust and other surface soil. Contains a dust attractant to keep dust locked onto your dust mop, dust cloth or feather duster. Daily application with a dry mop is an easy and economical method of cleaning and protecting floors. Nonoyl is slip-resistant and fast drying, allowing for immediate use of floor traffic areas. Nonoyl treated mops will not leave an oily or sticky residue on the floor surface.

Nonoyl is recommended for sealed wood floors, linoleum, terrazzo, waxed surfaces of asphalt and rubber tile, masonry and composition floor surfaces. Will not remove wax finish or cause bleeding or softening of the finish.

### DIRECTIONS FOR USE:

- Do not dilute. Use product full strength.
- Apply **Nonoyl** with a trigger sprayer until the dust mop, dust cloth or feather duster is slightly damp. Do not saturate the dust mop, cloth or duster.
- Repeat **Nonoyl** application when cloth or mop is dry or failing to hold dust. For best results always launder dust cloths and mops when soiling is excessive.

### SPECIFICATIONS

Appearance ..... Pink transparent liquid  
 Fragrance added ..... Citrus  
 pH ..... 6.0 -8.0

**Refer to the Safety Data Sheet (SDS) for detailed safety, health and environmental information.**

### PACKAGING:

Available in 1-gallon containers (4/case).

February 2024
