SPEEDCLEAN PLUS

FLOOR FINISH CLEANER FOR AUTOSCRUBBERS

Recommended for high-speed buffing programs. Speedclean Plus is an innovative concept in floor finish maintenance, restoring high gloss and extending the life of your finish. Removes black-heel and scuff marks, imbedded dirt and soil from finish. Use Speedclean Plus to clean and condition floor finish prior to high speed buffing. After buffing, floor finish is harder and glossier than ever before; a long-lasting gloss that can be renewed again and again. Your floors will keep that fresh-waxed look without constant recoating.

A regular floor maintenance program using Speedclean Plus extends the life of your floor finish two- or three-fold - with only 3 or 4 coats of a base finish. The finish becomes tougher - protecting against spills, scuffs, and penetration of tracked in dirt - even in heavy traffic areas. Speedclean Plus is the fastest method available to achieve peak appearance on your floors. Speedclean Plus achieves and maintains a sensational "wet look" gloss in "one speedy step".

DIRECTIONS FOR USE:

To clean and condition floors:

- Use 1/2 oz. per gallon of cold water. Apply solution with autoscrubber. Do not rinse floor after using. When floor has dried, buff to restore original gloss. Optimum results achieved with buffing speed of 1000-rpm or higher with soft or medium pad.

To scrub and recoat floor finish:

- Use 2 oz. Speedclean Plus per gallon of cold water. Machine scrub floor using scrub pad. Rinse with Winterclean 365 before applying new finish.

SPECIFICATIONS

Appearance	Blue clear liquid
Fragrance added	Strong
pH at concentrate	11-12r
pH at use dilution	8.5-9.5
Specific gravity	0.99-1.01

Refer to the Safety Data Sheet (SDS) for detailed safety, health and environmental information.

PACKAGING

Available in 1/2-gallon Tip & Measure containers (4/case).
