

PRODUCT DATA SHEET

WC-64 WINTERCLEAN 365

A highly-concentrated neutral cleaner and stripper neutralizer, suitable for use year round. Use daily, during the winter months, to clean unsightly and harmful de-icing residues from floor surfaces, and as a pH-balanced neutral cleaner 365 days a year. Prior to applying floor finish, use W-64 as a fail-safe rinse to eliminate streaking during finish application. W-64 also neutralizes harmful alkali stripper residue that can cause finish to fail. Will not damage finish gloss. No rinsing necessary. Safe for use on all types of finished and non-finished natural and synthetic floors including VCT, stone, ceramics, concrete and sealed wood, asphalt, rubber, cork, sealed wood, vinyl, vinyl asbestos, linoleum, terrazzo and stone.

DIRECTIONS FOR USE: Dilute with cold water.

For use as a neutral cleaner:

1. Add 2-4 ounces of WC-64 to 1 gallon of cold water.
2. Wash floor using a damp mop. Change solution as needed. No rinse required.
3. If using WC-64 in an automatic scrubber, use 2-4 ounces per gallon of cold water.

For use as a pre-finish neutralizer after stripping or deep scrubbing:

1. Use the same as above.
2. Wait until floor has dried before applying floor finish.

For buffing programs:

Use WC-64 at recommended dilutions on days with no scheduled buffing. On days scheduled for buffing, for best results, apply a maintainer/restorer prior to buffing.

Refer to the Safety Data Sheet (SDS) for detailed safety, health and environmental information.

SPECIFICATIONS

pH as provided.....	11-12
pH at use dilution.....	8.5-9.5
Color.....	Blue
Fragrance added.....	Mint
Solids.....	10.9%
Water Solubility.....	100%
Specific Gravity.....	1.02-1.03
Flash Point.....	None at the boil

The consequences of improper use or improper dilution are residue buildup or reduced effectiveness.

Recycling container recommended. Dispose of unused concentrate in accordance with local, state, and federal regulations.

PACKAGING

Available in 1/2-gallon Tip & Measure containers.
