

## MAPLUS - MAINTAINER PLUS

Printing: 7/29/2026

Date of compilation: 7/25/2025

Revised: 7/29/2026

Version: 2 (Replaced 1)

### SECTION 1: IDENTIFICATION

**1.1 Product identifier:** MAPLUS - MAINTAINER PLUS

**Other means of identification:**

Product Codes: MAPLUS1

This product is designed to be diluted at a rate of 1:32

**1.2 Recommended use of the chemical and restrictions on use:**

Relevant uses (Professional users):

- Product for protecting floors

Relevant uses (Industrial user):

- Product for protecting floors

For Professional users/Industrial user only.

Relevant use (Professional, Industrial):

Floor Finish Maintainer/Revitalizer

Uses advised against:

- All uses not specified in this section or in section 7.3

**1.3 Name, U.S. address, and U.S. telephone number of the chemical manufacturer, importer, or other responsible party:**

Next-Gen Supply Group

11 Norfolk St.

02048 Mansfield - MA - United States

Phone: 887-452-6726

**1.4 Emergency phone number:** INFOTRAC: 1-800-535-5053

### SECTION 2: HAZARD(S) IDENTIFICATION

**2.1 Classification of the substance or mixture:**

**29 CFR 1910.1200:**

Classification of the chemical in accordance with paragraph (d)(1)(i) of §1910.1200

Eye Irrit. 2A: Eye irritation, Category 2A, H319

**2.2 Label elements:**

**29 CFR 1910.1200:**

Warning

**Hazard statements:**

Eye Irrit. 2A: H319 - Causes serious eye irritation.

**Precautionary statements:**

P264: Wash thoroughly after use.

P280: Wear protective gloves/protective clothing/eye protection/protective footwear.

P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P337+P313: If eye irritation persists: Get medical advice/attention.

**Additional labeling:**

Keep out of the reach of children

**2.3 Hazards not otherwise classified (HNOC):**

Not relevant

### SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

**3.1 Substances:**

Not relevant

- CONTINUED ON NEXT PAGE -

## MAPLUS - MAINTAINER PLUS

Printing: 7/29/2026

Date of compilation: 7/25/2025

Revised: 7/29/2026

Version: 2 (Replaced 1)

### SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS (continued)

#### 3.2 Mixtures:

**Chemical description:** Aqueous dispersion of acrylic copolymer

#### Components:

Remaining components are non-hazardous and/or present at amounts below reportable limits. The specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret in accordance with paragraph (i) of §1910.1200. Therefore, in accordance with Appendix D to § 1910.1200, the product contains:

| Identification  | Chemical name/Classification                                                         | Concentration       |
|-----------------|--------------------------------------------------------------------------------------|---------------------|
| CAS: 68439-46-3 | <b>Alcohol ethoxylated (C9-C11)</b><br>Acute Tox. 4: H302; Eye Dam. 1: H318 - Danger | <b>1 - &lt;2.5%</b> |

To obtain more information on the hazards of the substances consult sections 11, 12 and 16.

### SECTION 4: FIRST-AID MEASURES

#### 4.1 Description of necessary measures:

The symptoms resulting from intoxication can appear after exposure, therefore, in case of doubt, seek medical attention for direct exposure to the chemical product or persistent discomfort, showing the SDS of this product.

#### By inhalation:

This product does not contain substances classified as hazardous for inhalation, however, in case of symptoms of intoxication remove the person affected from the exposure area and provide with fresh air. Seek medical attention if the symptoms get worse or persist.

#### By skin contact:

In case of contact it is recommended to clean the affected area thoroughly with water and neutral soap. In case of changes to the skin (stinging, redness, rashes, blisters,...), seek medical advice with this Safety Data Sheet

#### By eye contact:

Rinse eyes thoroughly with lukewarm water for at least 15 minutes. Do not allow the person affected to rub or close their eyes. If the injured person uses contact lenses, these should be removed unless they are stuck to the eyes, as this could cause further damage. In all cases, after cleaning, a doctor should be consulted as quickly as possible with the SDS of the product.

#### By ingestion/aspiration:

Do not induce vomiting, but if it does happen keep the head down to avoid aspiration. Keep the person affected at rest. Rinse out the mouth and throat, as they may have been affected during ingestion.

#### 4.2 Most important symptoms/effects, acute and delayed:

Acute and delayed effects are indicated in sections 2 and 11.

#### 4.3 Indication of immediate medical attention and special treatment needed, if necessary:

Not relevant

### SECTION 5: FIRE-FIGHTING MEASURES

#### 5.1 Suitable (and unsuitable) extinguishing media:

#### Suitable extinguishing media:

Product is non-flammable under normal conditions of storage, handling and use. In the case of combustion as a result of improper handling, storage or use preferably use polyvalent powder extinguishers (ABC powder), in accordance with the Regulation on fire protection systems.

#### Unsuitable extinguishing media:

Non-applicable

#### 5.2 Specific hazards arising from the chemical:

As a result of combustion or thermal decomposition reactive sub-products are created that can become highly toxic and, consequently, can present a serious health risk.

#### 5.3 Special protective equipment and precautions for fire-fighters:

Depending on the magnitude of the fire it may be necessary to use full protective clothing and Self Contained Breathing Apparatus. Minimum emergency facilities and equipment should be available (fire blankets, portable first aid kit,...)

#### Additional provisions:

- CONTINUED ON NEXT PAGE -

## MAPLUS - MAINTAINER PLUS

Printing: 7/29/2026

Date of compilation: 7/25/2025

Revised: 7/29/2026

Version: 2 (Replaced 1)

### SECTION 5: FIRE-FIGHTING MEASURES (continued)

As in any fire, prevent human exposure to fire, smoke, fumes or products of combustion. Only properly trained personnel should be involved in firefighting. Evacuate nonessential personnel from the fire area. Destroy any source of ignition. In case of fire, refrigerate the storage containers and tanks for products susceptible to inflammation. Avoid spillage of the products used to extinguish the fire into an aqueous medium.

### SECTION 6: ACCIDENTAL RELEASE MEASURES

#### 6.1 Personal precautions, protective equipment and emergency procedures:

##### For non-emergency personnel:

Isolate leaks provided that there is no additional risk for the people performing this task. Personal protection equipment must be used against potential contact with the spilt product (See section 8). Evacuate the area and keep out those who do not have protection.

##### For emergency responders:

Wear protective equipment. Keep unprotected persons away. See section 8.

#### 6.2 Environmental precautions:

This product is not classified as hazardous to the environment. Keep product away from drains, surface and underground water.

#### 6.3 Methods and materials for containment and cleaning up:

For accidental releases in excess of reportable quantities (RQ) (Table 302.4), refer to 40 CFR 302 for detailed instructions concerning reporting requirements and notify the National Response Center (800) 424-8802.

Prevent the entrance of product in drains, sewers or watercourses. Absorb the spill using sand or inert absorbent and move it to a safe place. Do not absorb in sawdust or other combustible absorbents. Collect the product in appropriate containers and manage it according to current legislation.

Spillages in water or sea:

Small spillages:

Contain spillage using barriers or similar equipment. Use suitable absorbents for collection and treat the waste in accordance with current regulations.

Large spillages:

If possible, contain spillage in open water using barriers or similar equipment. If this is not possible, try to control its spread and collect the product with suitable mechanical means. Always consult experts before using dispersants and make sure you have the necessary approvals if they are to be used. Treat the waste according to current regulations.

#### 6.4 Reference to other sections:

See sections 8 and 13.

### SECTION 7: HANDLING AND STORAGE

#### 7.1 Precautions for safe handling:

A.- General precautions for safe use

Comply with the current legislation concerning the prevention of industrial risks with regards manually handling weights. Maintain order, cleanliness and dispose of using safe methods (section 6).

B.- Technical recommendations for the prevention of fires and explosions

Product is non-flammable under normal conditions of storage, manipulation and use. It is recommended to transfer at slow speeds to avoid the generation of electrostatic charges that can affect flammable products. Consult section 10 for information on conditions and materials that should be avoided.

C.- Technical recommendations on general occupational hygiene

Do not eat or drink during the process, washing hands afterwards with suitable cleaning products.

D.- Technical recommendations to prevent environmental risks

It is recommended to have absorbent material available at close proximity to the product (See subsection 6.3)

#### 7.2 Conditions for safe storage, including any incompatibilities:

A.- Specific storage requirements

Minimum Temp.: 41 °F

Maximum Temp.: 86 °F

Maximum time: 12 Months

- CONTINUED ON NEXT PAGE -

## MAPLUS - MAINTAINER PLUS

Printing: 7/29/2026

Date of compilation: 7/25/2025

Revised: 7/29/2026

Version: 2 (Replaced 1)

### SECTION 7: HANDLING AND STORAGE (continued)

#### B.- General conditions for storage

Avoid sources of heat, radiation, static electricity and contact with food. For additional information see subsection 10.5

#### 7.3 Specific end use(s):

Except for the instructions already specified it is not necessary to provide any special recommendation regarding the uses of this product.

### SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

#### 8.1 Control parameters:

Substances whose occupational exposure limits have to be assessed in the workplace:

There are no applicable occupational exposure limits for the substances contained in the product

#### 8.2 Appropriate engineering controls:

##### A.- Individual protection measures, such as personal protective equipment

As a preventative measure it is recommended to use basic Personal Protection Equipment. For more information on Personal Protection Equipment (storage, use, cleaning, maintenance, class of protection,...) consult the information leaflet provided by the manufacturer. For more information see subsection 7.1. All information contained herein is a recommendation, the information on clothing performance must be combined with professional judgment, and a clear understanding of the clothing application, to provide the best protection to the worker. All chemical protective clothing use must be based on a hazard assessment to determine the risks for exposure to chemicals and other hazards. Conduct hazard assessments in accordance with 29 CFR 1910.132.

##### B.- Respiratory protection

If the working conditions and/or safety measures adopted do not allow keeping the airborne concentration of the product below the exposure limits (if any) or at acceptable levels (if no exposure limits exist), suitable respiratory protection equipment chosen by a qualified professional should be used.

##### C.- Specific protection for the hands

| Pictogram                                                                                                        | PPE                                   | Remarks                                                                                                                                                                                                                                                                           |
|------------------------------------------------------------------------------------------------------------------|---------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <br>Mandatory hand protection | Protective gloves against minor risks | Replace gloves in case of any sign of damage. For prolonged periods of exposure to the product for professional /industrial users, we recommend using chemical protection gloves. Use gloves in accordance with manufacturer's use limitations and OSHA standard 1910.138 (29CFR) |

As the product is a mixture of several substances, the resistance of the glove material can not be calculated in advance with total reliability and has therefore to be checked prior to the application.

##### D.- Eye and face protection

| Pictogram                                                                                                        | PPE                                           | Remarks                                                                                                                                                                                                                     |
|------------------------------------------------------------------------------------------------------------------|-----------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <br>Mandatory face protection | Panoramic glasses against splash/projections. | Clean daily and disinfect periodically according to the manufacturer's instructions. Use if there is a risk of splashing. Use this PPE in accordance with manufacturer's use limitations and OSHA standard 1910.133 (29CFR) |

##### E.- Bodily protection

| Pictogram | PPE                  | Remarks                                       |
|-----------|----------------------|-----------------------------------------------|
|           | Work clothing        | Replace before any evidence of deterioration. |
|           | Anti-slip work shoes | Replace before any evidence of deterioration. |

##### F.- Additional emergency measures

It is advised to implement additional emergency equipments in workplaces that are particularly exposed to the product or in situations where risk assessments highlight the necessity of such equipments.

#### Environmental exposure controls:

To comply with environmental protection regulations, it is recommended to prevent any spillage of the product and its container. For more detailed information, please refer to subsection 7.1.D.

#### 40 CFR Part 59 (VOC):

|                         |                             |
|-------------------------|-----------------------------|
| V.O.C.(weight-percent): | 0 % weight                  |
| V.O.C. at 68 °F:        | 0 kg/m <sup>3</sup> (0 g/L) |

#### California Air Resources Board (CARB) - VOC Regulatory:

|                         |                             |
|-------------------------|-----------------------------|
| V.O.C.(weight-percent): | 0 % weight                  |
| V.O.C. at 68 °F:        | 0 kg/m <sup>3</sup> (0 g/L) |

#### South Coast Air Quality Management District (AQMD) - VOC Regulatory:

|                         |                             |
|-------------------------|-----------------------------|
| V.O.C.(weight-percent): | 0 % weight                  |
| V.O.C. at 68 °F:        | 0 kg/m <sup>3</sup> (0 g/L) |

#### Ozone Transport Commission (OTC) Rules - VOC Regulatory:

|                         |                             |
|-------------------------|-----------------------------|
| V.O.C.(weight-percent): | 0 % weight                  |
| V.O.C. at 68 °F:        | 0 kg/m <sup>3</sup> (0 g/L) |

### SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

#### 9.1 Information on basic physical and chemical properties:

For complete information see the product datasheet.

##### Appearance:

|                          |             |
|--------------------------|-------------|
| Physical state at 68 °F: | Liquid      |
| Appearance:              | Transparent |
| Color:                   | Blue, Pink  |
| Odor:                    | Mild        |

##### Volatility:

|                                        |                         |
|----------------------------------------|-------------------------|
| Boiling point at atmospheric pressure: | 212 °F                  |
| Vapour pressure at 68 °F:              | 2350 Pa                 |
| Vapour pressure at 122 °F:             | 12381.01 Pa (12.38 kPa) |
| Evaporation rate at 68 °F:             | Not relevant *          |

##### Product description:

|                                              |                          |
|----------------------------------------------|--------------------------|
| Density at 68 °F:                            | 1000.3 kg/m <sup>3</sup> |
| Relative density at 68 °F:                   | 1                        |
| Dynamic viscosity at 68 °F:                  | Not relevant *           |
| Kinematic viscosity at 68 °F:                | Not relevant *           |
| Kinematic viscosity at 104 °F:               | Not relevant *           |
| Concentration:                               | Not relevant *           |
| pH:                                          | ≈2.2 - 2.6               |
| Relative vapour density at 68 °F:            | Not relevant *           |
| Partition coefficient n-octanol/water 68 °F: | Not relevant *           |

\*Not relevant due to the nature of the product, not providing information property of its hazards.

| Median equivalent diameter:      | Not relevant *            |

#### 9.2 Other information:

##### Information with regard to physical hazard classes:

|                                                              |                |
|--------------------------------------------------------------|----------------|
| Explosive properties:                                        | Not relevant * |
| Oxidising properties:                                        | Not relevant * |
| Corrosive to metals:                                         | Not relevant * |
| Heat of combustion:                                          | Not relevant * |
| Aerosols-total percentage (by mass) of flammable components: | Not relevant * |

##### Other safety characteristics:

|                                       |                |
|---------------------------------------|----------------|
| Surface tension at 68 °F:             | Not relevant * |
| Refraction index:                     | Not relevant * |
| MIR (Maximum Incremental Reactivity): | 0.01           |
| pH (Diluted 1:64) = 4 - 4.6           |                |

\*Not relevant due to the nature of the product, not providing information property of its hazards.

### SECTION 10: STABILITY AND REACTIVITY

#### 10.1 Reactivity:

No hazardous reactions are expected because the product is stable under recommended storage conditions. See section 7 from Safety Data Sheet.

#### 10.2 Chemical stability:

Chemically stable under the indicated conditions of storage, handling and use.

#### 10.3 Possibility of hazardous reactions:

Under the specified conditions, hazardous reactions that lead to excessive temperatures or pressure are not expected.

#### 10.4 Conditions to avoid:

Applicable for handling and storage at room temperature:

| Shock and friction | Contact with air | Increase in temperature | Sunlight       | Humidity       |
|--------------------|------------------|-------------------------|----------------|----------------|
| Not applicable     | Not applicable   | Not applicable          | Not applicable | Not applicable |

#### 10.5 Incompatible materials:

| Acids              | Water          | Oxidising materials | Combustible materials | Others                        |
|--------------------|----------------|---------------------|-----------------------|-------------------------------|
| Avoid strong acids | Not applicable | Not applicable      | Not applicable        | Avoid alkalis or strong bases |

#### 10.6 Hazardous decomposition products:

See subsection 10.3, 10.4 and 10.5 to find out the specific decomposition products. Depending on the decomposition conditions, complex mixtures of chemical substances can be released: carbon dioxide (CO<sub>2</sub>), carbon monoxide and other organic compounds.

Date of compilation: 7/25/2025

Revised: 7/29/2026

Version: 2 (Replaced 1)

### SECTION 11: TOXICOLOGICAL INFORMATION

#### 11.1 Information on toxicological effects:

The experimental information related to the toxicological properties of the product itself is not available

##### Dangerous health implications:

In case of exposure that is repetitive, prolonged or at concentrations higher than recommended by the occupational exposure limits, it may result in adverse effects on health depending on the means of exposure:

##### A- Ingestion (acute effect):

- Acute toxicity: Based on available data, the classification criteria are not met, however, it contains substances classified as dangerous for consumption. For more information see section 3.
- Corrosivity/Irritability: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

##### B- Inhalation (acute effect):

- Acute toxicity : Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for inhalation. For more information see section 3.
- Corrosivity/Irritability: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

##### C- Contact with the skin and the eyes (acute effect):

- Contact with the skin: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for skin contact. For more information see section 3.
- Contact with the eyes: Causes serious eye irritation.

##### D- CMR effects (carcinogenicity, mutagenicity and toxicity to reproduction):

- Carcinogenicity: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for the effects mentioned. For more information see section 3.  
IARC: Not relevant
- Mutagenicity: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.
- Reproductive toxicity: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

##### E- Sensitizing effects:

- Respiratory: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous with sensitising effects. For more information see section 3.
- Skin: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

##### F- Specific target organ toxicity (STOT) - single exposure:

Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

##### G- Specific target organ toxicity (STOT)-repeated exposure:

- Specific target organ toxicity (STOT)-repeated exposure: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.
- Skin: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

##### H- Aspiration hazard:

Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

##### Other information:

Not relevant

##### Specific toxicology information on the substances:

| Identification                                  | Acute toxicity         |            | Genus |
|-------------------------------------------------|------------------------|------------|-------|
| Alcohol ethoxylated (C9-C11)<br>CAS: 68439-46-3 | LD50 oral              | 1400 mg/kg | Rat   |
|                                                 | LD50 dermal            |            |       |
|                                                 | LC50 inhalation vapour |            |       |

**SECTION 12: ECOLOGICAL INFORMATION**

The experimental information related to the eco-toxicological properties of the product itself is not available

Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

**12.1 Ecotoxicity (aquatic and terrestrial, where available):**

**Acute toxicity:**

| Identification                                  | Concentration |                 | Species | Genus |
|-------------------------------------------------|---------------|-----------------|---------|-------|
| Alcohol ethoxylated (C9-C11)<br>CAS: 68439-46-3 | LC50          | 113 mg/L (96 h) | QSAR    | Fish  |
|                                                 | EC50          | Not relevant    |         |       |
|                                                 | EC50          | Not relevant    |         |       |

**12.2 Persistence and degradability:**

Not relevant

**12.3 Bioaccumulative potential:**

Not relevant

**12.4 Mobility in soil:**

Not relevant

**12.5 Results of PBT and vPvB assessment:**

Not relevant

**12.6 Other adverse effects:**

Not described

**SECTION 13: DISPOSAL CONSIDERATIONS**

**13.1 Disposal methods:**

IT IS THE RESPONSIBILITY OF THE WASTE GENERATOR TO EVALUATE WHETHER HIS WASTES ARE HAZARDOUS BY CHARACTERISTICS OR LISTING.

**Waste management (disposal and evaluation):**

Follow RCRA framework and EPA regulation for to ensure that hazardous waste is managed safely and properly. Waste should not be disposed of to drains. Remind, It is the responsibility of the waste generator to evaluate whether his wastes are hazardous by characteristics or listing. See section 6 for further information about Accidental release measures.

**Regulations related to waste management:**

Legislation related to waste management:

40 CFR Solid Wastes - Part 239 through 282.

State regulatory requirements for generators may be more stringent than those in the federal program. Be sure to check the state's policies.

**SECTION 14: TRANSPORT INFORMATION**

This product is not regulated for transport.

**SECTION 15: REGULATORY INFORMATION**

**15.1 Safety, health and environmental regulations specific for the product in question:**

### SECTION 15: REGULATORY INFORMATION (continued)

- CALIFORNIA LABOR CODE - The Hazardous Substances List: Not relevant
- California Proposition 65 (the Safe Drinking Water and Toxic Enforcement Act of 1986) - Birth defects or other reproductive harm: Not relevant
- California Proposition 65 (the Safe Drinking Water and Toxic Enforcement Act of 1986) - Cancer: Not relevant
- CANADA-Domestic Substances List (DSL): *Water (7732-18-5)* ; *Glycollic acid (79-14-1)* ; *Phenol, 4,4'-(1-methylethylidene)bis-, polymer with 2-(chloromethyl)oxirane and a-hydro-w-hydroxypoly(oxy-1,2-ethanediyl) (42617-82-3)* ; *Polyethyleneglicol MW 8000 (25322-68-3)* ; *Alcohol ethoxylated (C9-C11) (68439-46-3)*
- CANADA-Non-Domestic Substances List (NDSL): Not relevant
- Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) - Reportable Quantities: Not relevant
- Hazardous Air Pollutants (Clean Air Act): Not relevant
- Massachusetts RTK - Substance List: Not relevant
- Minnesota - Hazardous substances ERTK: *Polyethyleneglicol MW 8000 (25322-68-3)*
- New Jersey Worker and Community Right-to-Know Act: Not relevant
- New York RTK - Substance list: Not relevant
- NTP (National Toxicology Program): Not relevant
- OSHA Specifically Regulated Substances (29 CFR 1910.1001-1096): Not relevant
- Pennsylvania Worker and Community Right-to-Know Law: Not relevant
- Protective Action Criteria (PAC) with AEGLs, ERPGs, & TEELs: *Glycollic acid (79-14-1)* ; *Polyethyleneglicol MW 8000 (25322-68-3)*
- Rhode Island - Hazardous substances RTK: Not relevant
- SB-258 Cleaning Product Right to Know Act : Not relevant
- The Toxic Substances Control Act (TSCA) : *Water (7732-18-5)* ; *Glycollic acid (79-14-1)* ; *Phenol, 4,4'-(1-methylethylidene)bis-, polymer with 2-(chloromethyl)oxirane and a-hydro-w-hydroxypoly(oxy-1,2-ethanediyl) (42617-82-3)* ; *Polyethyleneglicol MW 8000 (25322-68-3)* ; *Alcohol ethoxylated (C9-C11) (68439-46-3)*
- Toxic chemical release reporting under EPCRA section 313 (40 CFR Part 372): Not relevant

#### Specific provisions in terms of protecting people or the environment:

It is recommended to use the information provided in this safety data sheet as a foundation for conducting workplace-specific risk assessments. These assessments will help establish the appropriate risk prevention measures for handling, using, storing, and disposing of this product.

#### Other legislation:

Take into consideration other applicable federal, state, and local laws and local regulations.

#### Other information:

All of the ingredients in the product formula are on the TSCA Inventory.

### SECTION 16: OTHER INFORMATION

#### Legislation related to safety data sheets:

This safety data sheet has been designed in accordance with Appendix d to §1910.1200 - Safety data sheets

#### Texts of the legislative phrases mentioned in section 2:

H319: Causes serious eye irritation.

#### Texts of the legislative phrases mentioned in section 3:

The phrases indicated do not refer to the product itself; they are present merely for informative purposes and refer to the individual components which appear in section 3

#### 29 CFR 1910.1200:

Acute Tox. 4: H302 - Harmful if swallowed.

Eye Dam. 1: H318 - Causes serious eye damage.

#### Advice related to training:

According to 29 CFR 1910. 1200, training on chemical hazards is necessary for employees using this product. This training will facilitate their understanding and interpretation of the safety data sheet, as well as the product label.

#### Principal bibliographical sources:

Occupational Safety & Health Administration (OSHA).

#### Abbreviations and acronyms:

Date of compilation: 7/25/2025

Revised: 7/29/2026

Version: 2 (Replaced 1)

**SECTION 16: OTHER INFORMATION (continued)**

IMDG: International maritime dangerous goods code  
IATA: International Air Transport Association  
ICAO: International Civil Aviation Organisation  
COD: Chemical Oxygen Demand  
BOD5: 5-day biochemical oxygen demand  
BCF: Bioconcentration factor  
LD50: Lethal Dose 50  
CL50: Lethal Concentration 50  
EC50: Effective concentration 50  
Log-POW: Octanol-water partition coefficient  
Koc: Partition coefficient of organic carbon  
IARC: International Agency for Research on Cancer

**NFPA:**

Health Hazards: 1  
Flammability Hazards: 0  
Instability Hazards: 0  
Special Hazards: Not relevant

Date of compilation: 7/25/2025

Revised: 7/29/2026

Information in this Safety Data Sheet (SDS) is based on sources other than direct test data and is given in good faith. No warranty is expressed or implied. We believe that the information is current as of the date of this SDS. The use of this information, the conditions, the methods of handling, storage, use and disposal of the product are not within the control of the manufacturer and distributor, therefore it is the user's responsibility and obligation to determine the conditions of the safe use of this product and to ensure that its activities comply with all laws and regulations.
